## WORK EXPERIENCE

### Full Stack Web Developer Hitech Solutions

02/2023 - 08/2023

Lisbon - Portugal ( Remotely )

#### Achievements/Tasks

- Worked smoothly with designers, frontend, and backend devs, promoting communication and achieving project milestones efficiently.
- Employed Vue.js for dynamic, interactive frontend, enhancing user engagement with real-time updates for a modern experience.
- Utilized Laravel's robust framework to construct secure RESTful APIs, streamline data management, and seamlessly integrate diverse web application components.

### Software Developer Kreatorz dev

10/2020 - 10/2022

Ariana - Tunisia

#### Achievements/Tasks

- In charge of the deployment of the company's software solution, by working with the company's clients to identify their software needs.
- Overhauled the obsolete legacy source code of two projects, resulting in increased usability and reduced run time performance by 60%.
- Implemented the regression testing of projects by testing under a virtual environment and resulting in zero bugs.

### Software Developer Ministry of Social Affairs

06/2021 - 08/2021

Tunis - Tunisia

#### Achievements/Tasks

- Developed a service that detects vulnerabilities of hundreds of equipment by analyzing their logs collected in a database.
- Created weekly reports using SQL to extract data from a database, similar to the most recent data. Used Excel to cleanse, analyze, and format the data.
- worked with other groups to ensure continuity and coverage of the other departments.
